WORLD'S PACING RECORD IN A PACE LOWERED.

THE GREAT HORSE GOES A MILE IN 2:004 AND REATS JOE PATCHEN IN A SENSATIONAL

CONTEST-CHEERED BY 65,000 PEOPLE. Springfield, Ill., Oct. 1.-In a race witnessed by at least sixty-five thousand people, Star Pointer on the Illinois State Fair Grounds, this afternoon, not only maintained his reputation as the king of

pacers by beating Joe Patchen, but also lowered the world's pacing record in a race by half a second, making the mile in 2:00½, the record in a race having been 2:01, which Pointer made on Saturday September 18, at Indianapolis, when he defeated Patchen. Star Pointer was greeted with tremendous cheering by the assembled thousands as he passed under the wire in the third heat, and the passed of the total heat before their side was disposed of the total their work in such a determined manner in which they started in it west toge of batting first.

If trot, he making the mile in 2:07%. The greatest race between the two fastest pacers in the world brought to the State Fair Grounds the largest crowd ever assembled there. In the grandstand not even standing room was obtainable. Thousands of people lined the track on both sides for fully one-third of its length. The track was in splendid condition, and there were fast time and sensational finishes in several races. When the two great pacers appeared they were greeted with cheers. On the first attempt they got a nice start. Patchen having the pole, but after going a few hundred feet Star Pointer broke badly, and before he recovered Patchen was about an eighth of mile ahead of him. Joe Patchen finished the heat in a jog in 2:14 amid cheers, with Star Pointer two hundred or three hundred feet behind. The first quarter was made in 0:20%, the half in 1:224, three-quarters in 1:25% and the mile in 2:14.

Star Pointer secured the pole in the second heat, and the two horses started even, but Joe Patchen soon broke and lost a dozen or more lengths. He sained on Pointer toward the three-quarters and rapidly overhauled him. McCleary holding his horse back. Down the homestretch it was a pretty fight between the two, but Pointer maintained his lead and passed under the wire half a length ahead. Pointer made the first quarter in 0:20, the half in 1:03, the three-quarters in 1:30% and the mile in 2:06. he last quarter being made in 0:2914.

The third heat was a wildly exciting one, and was a race for blood from the start. After three inefa race for blood from the start. After three ineffectual atempts the horses got off together. Pointer soon took the lead, and in the first quarter he was one and a half lengths ahead. The black pulled up somewhat toward the half, and when that was reached Pointer was only three-quarters of a length shead. Then Patchen lost, but gained again, and at the three-quarters was not quite a length helfind. When near the wire Patchen fell behind, however, and Pointer won by five or six lengths. The time by quarters was as follows: First, 0:29%; second, 1:00; third, 1:200; intel, 2:001. The weather was intensely hot, and scores of men and women of the thousands who stood in the sin along the track for hours with the mercury 91 degrees in the shade failnted. Summaries:

THE ENGLISHMEN ROLL UP A BIG SCORE AGAINST THE PHILADELPHIANS.

Philadelphia, Oct. 1 (Special).-The grounds of the Merion Cricket Club at Haverford were the scene of a great gathering of Quaker City "upper tendom" to-day, for the English team of cricketers, under the captaincy of the popular young P. F. Warren, began the last game of their American tour there. It was almost summer weather, and the large gathering of women, with their bright ostumes, made a pretty scene. The wicket was a perfect condition, being hard and true, and the nighthern were considered to have great luck then they won the loes and obtained the advange of hatting first.

The Law Committee of the Board of Aldermen was scheduled to meet yesterday afternoon to consider that part of the recently adopted Rules of the Road ordinance that relates to lights on trucks. The ordinance as adopted compels all vehicles to carry lights after dark. A motion to amend the rule so as to except licensed trucks was introduced at a meeting of the Board of Aldermen two weeks ago, and there seemed to be a difference of opinion in the Board as to where the line should be drawn between trucks and light vehicles. The matter was referred to the Law Committee for a report last week, but the committee failed to make a report. There was not a quorum present vesterday. The members of the committee present decided to report the section of the ordinance back without any change and let the full Board amend if it desires.

Municipalities this morning passed the following resolutions, introduced by Albert J. Beardman, of

resolutions, introduced by Albert J. Beardman, of Tampa, Fla.:

Whereas, This National conference of Mayors and members of City Councils has been informed that the United States Department of Labor has undertaken an investigation of water, gas and electric lighting works, and a clear outline of the methods, form and purposes of the investigation has been given by Alien Ripley Foote, in a paper read before the conference; and

Whereas, The Hon, Carroll D. Wright, United States Commissioner of Labor, has announced that the object of this investigation is to enable municipalities and the citizens thereof to determine whether there is any economic advantage to consumers in the municipal ownership and operation of water, gas and electric lighting works; and

Whereas, Such an investigation by the expert and impartial authority of the United States Department of Labor, which can reach every municipality in the United States, is sorely needed, and will have a vital and far-reaching influence in correctly guiding public policy on this question of paramount importance to all municipalities; be it therefore Resolved, First-That this conference cordially approves of the investigation as set forth in Mr. Foote's paper, to be made for the purpose stated by the Hon, Carroll D. Wright, United States Commissioner of Labor,

Second—That the delegates to this conference tender to the United States Department of Labor, and to its duly accredited agents, their co-operation in every practical way, to facilitate this investigation in their respective municipalities, and to make the investigation collected complete and accurate.

Third—That it is the sense of this conference that

to make the investigation collected complete and accurate.

Third—That it is the sense of this conference that the executive and legislative officers of all municipalities and the managers of all public service corporations should promptly and cordially do whatever may become necessary on their part to expedite the work of this investigation, to the end that through it statistics may be secured that will be accepted by all persons as a reliable basis for comparisons.

JOHN O'BRIEN'S THREAT.

John O'Brien, of John C. Sheehan's contracting firm, has threatened to apply for a writ of man-damus to compel the Commissioners of the New East River Bridge to award to him the contract for building the Brooklyn anchorage of the bridge. He put in the lowest bid for the work, \$687.621. He put in the lowest bid for the work, \$587,621, which was \$34,000 less than the bid of the Degnan-McLean Construction Company, which secured the contract, and he has said that after the contract was awarded somebody offered to pay him \$40,000 if he would make no fight against the award.

Several of the Commissioners have said that they were not bound to consider the lowest bid, and that the best interests of the city were considered when the contract was awarded to the firm that built the foundations for the Brooklyn pier. No papers had been served on the Commissioners in a suit by Mr. O'Brien yesterday. THE FINEST COOKERY.

A leading New York restaurateur was asked the other day why he used gas broilers. He replied, in effect, that he had to use them in order to keep his custom. He said; "The class of men who visit my establishment are good livers and connoisseurs of good cooking. Our chops and steaks must be of the very best quality and cooked in the very best manner. I cannot say too much in favor of gas broilers for those who cater to epicures. Any one in doubt of the practicability of using gas for fine broiling is at liberty to call at my place and eat a chop or a steak cooked on the gas broilers." This testimony is only corroborative of that given by all hotel men and restaurant keepers, who have made trial of gas appliances for cooking. They simply will not do without them. Nor is it only a question of broiling. Whether it is for roasting or baking, cooking meat or brandstuffs, it is the use of gas which secures the perfection of cookery. The reason is perfectly obvious. Cooking by gas is simply the performing of a delicate and accurate chemical experiment—not blundering about in the dark, as you are compelled to with a coal range. Exquisite cookery is a chemical experiment—not blundering about in the dark, as you are compelled to with a coal range. Exquisite cookery is a chemical experiment, and there is nothing like a gas range for enabling you to perform it successfully.

TYNG AND QUINCY SHAW TO PLAY FOR THE MEADOWBROOK CUP, AND BEACH AND TAPPIN FOR THE CONSOLATION. A blazing October sun, with scarcely a tempering

hreeze, made the day yesterday an appressive one for the players in the Meadowbrook golf tournament, at Westbury, Long Island. In spite of the heat, however, the second and semi-final rounds in both the Meadowbrook and Consolation Cup contests were finished, and as a result Tyng and Quincy Shaw will play to-day for the former trophy, while P. The eight who survived the first round for the Meadowbrook Cup on Thursday were on the links early in the morning. Tyng had as his opponent H. W. Slocum, the tormer tennis champion, who, in spite of his capital showing against the Phila-delphia Cricket Club player, Bohlen, on the opening day, was thoroughly outclassed. Tyng had a com-fortable lead of six holes at the end of the first round, an advantage which led him to drop off in his work during the rest of the contest, for his final score was only 5 up and 3 to play. Slocum won the tenth hole at 6 to 7. He halved the eleventh and was again successful on the twelfth and thirteenth.
Tyng took the fourteenth, which left him dormie
four, following it up with the fifteenth, which ended the contest. The cards were:

Tyng ..... Winthrop Rutherfurd, of the Meadow Brook Club, the medal winner in the preliminary round, was paired with C. L. Perkins, of the Rockaway Hunt

Club. It was not until the last hole that Ruther-furd won, and the play was more than usually spir-ited throughout. Rutherfurd had a lead of three up at the fifth hole, and rounded the home green with the same advantage. At the fifteenth hole the Rockaway man had cut this down to one up, but in spite of his strong rally the following three holes were halved, which gave the match to Ruth-H. O. Havemeyer, jr., of Newport, who played with Quincy Shaw, of the Myopia Club, in the

The baseball season in the East will be brought to a close to-day, and while the results of the contests will not affect the championship the playing may affect the standing of some of the club pless fortunate than Eoston. The Boston and Brooklyn teams will wind up at Eastern Park this afternoon, and there should be a large attendance. The Brooklyn and Washington teams are now tied for sixth place, and each will make a determined effort to add a victory to its list in order to finish in the first division. In case both the Baltimore and Boston teams wit their games to-day and the Pittsburg team should win, then the Pirates have the call for a place in the first division. There is small likelished of any changes in the positions of any of the other teams.

In the Templa Cup series, which will begin next week, the Boston team will be a decided favorite. The champions are in splendid condition, and the fact that the first three games are to be played at Boston will give the champions a decided savantage.
